

Mission Statement

Our aim is to become a living growing body of women who know the truth and speak it out in love as Jesus did.

Taking our lead from him, we will be joined and held together as we support one another.

As he breathes his life into us we will be nourished, giving one another the freedom to do what we do best, becoming all we can be.

The body will build itself up in love, becoming a mature and powerful tool in the hand of God to affect the community in which we live.

Values

We believe growth will happen:-

- By hearing and responding to God
- By reaching out to others
- By fellowshiping with each other
- By coming into God's presence in unity
- By sharing our love
